

1000W Lithium-ion Battery Portable Power Station with USB C Output and Pure Sine Wave

Our Product Introduction

for more products please visit us on enookbattery.com

Basic Information

- Brand Name: enook
- Certification: CE ROHS FCC UN38 .3 MSDS
- Model Number: portable solar power station
- Minimum Order Quantity: 4

Product Specification

- Battery Type: Lithium-ion
- DC Output: USB-C
- Output Wave: 1000W Sine Wave
- Discharge Temperature: -4-113°F/-20-45°C
- Inverter Type: Pure Sine Wave
- Power Source: AC Adaptor, Solar Panel, Other
- Keywords: Outdoor Portable Emergency Power Station
- Model: LA1000W
- Highlight: **USB C 1000W Portable Power Station,
Lithium-ion Battery Portable Power Station,
1000W Portable Power Station**

Product Description

Product Description:

One of the key features of this product is its Pure Sine Wave inverter type, which ensures that the power output is stable and reliable, making it safe for sensitive electronics like laptops, TVs, and medical equipment. This makes it an ideal choice for remote locations where access to reliable power is limited.

The Portable Power Station is designed to be compact and easy to carry, making it perfect for camping trips, hiking, or other outdoor activities. It is also a great option for emergency situations where power outages are common. With its high-capacity battery, it can keep your devices charged for hours, giving you peace of mind in any situation.

Aside from its Pure Sine Wave inverter type, the Portable Power Station also features a built-in LCD display that shows the remaining battery life and power output. This makes it easy to monitor the status of the device and adjust the power output as needed.

The LA1000W model also comes with a range of safety features to protect both the device and the user. It has built-in overcharge, over-discharge, and short circuit protection, ensuring that the battery is always safe to use. It also has a built-in cooling fan that prevents the device from overheating, even during extended use.

In summary, the Portable Power Station is a reliable and versatile power source that is perfect for outdoor activities, emergency situations, and more. Its Pure Sine Wave inverter type ensures that the power output is stable and safe for sensitive electronics, while its high-capacity battery provides hours of power. With its built-in safety features and LCD display, it is easy to use and monitor, making it an excellent choice for anyone who needs a portable power source.

Features:

Product Name: Portable Power Stations

DC output: USB-C

Model: LA1000W

Output Wave: 1000W Sine Wave

Keywords: Outdoor Portable Emergency Power Station

Working humidity: 10-90%

AC Adaptor

Car

Solar Panel

Outdoor Camping Portable Energy Battery

Fast charging Lifepo4 battery

Technical Parameters:

Working humidity	10-90%
Voltage	AC110~220V
Power Source	AC Adaptor, Solar Panel, Other
DC output	USB-C
Special Features	Type C, Flashlight, RV Port, Cigar Lighter
Inverter Type	Pure Sine Wave
Discharge temperature	-4-113°F/-20-45°C
Battery Type	Lithium-ion
Output Wave	1000W Sine Wave

This high capacity portable solar power station is perfect for outdoor use, emergencies, and camping trips. It can be charged using an AC adaptor, solar panel, or other power sources. Its special features include Type C, flashlight, RV port, and cigar lighter. The inverter type is pure sine wave and the battery type is lithium-ion. The output wave is 1000W sine wave. It has a working humidity range of 10-90% and can operate at a voltage of AC110~220V. The discharge temperature range is -4-113°F/-20-45°C.

Applications:

One of the main applications of the enook Portable Power Station is for outdoor camping trips. This product serves as an Outdoor Camping Portable Energy Battery, providing power for electronic devices such as lights, fans, and even small appliances. The lithium-ion battery type and pure sine wave inverter make for a seamless and efficient energy transfer, while the 1000W Sine Wave output wave ensures a stable power source for any device. The AC110~220V voltage also allows for versatility in charging different devices. Another scenario where the enook Portable Power Station can come in handy is during power outages. Instead of relying on traditional generators, this product offers a cleaner and quieter alternative. With its high capacity, it can power essential appliances such as refrigerators, computers, and medical equipment for an extended period of time. Its portability also makes it easy to move around the house or bring to a different location if needed.

For outdoor events such as concerts or festivals, the enook Portable Power Station can serve as a reliable power source for sound systems, lighting, and other equipment. Its compact size and easy-to-carry handle make it convenient to transport and set up wherever necessary.

Finally, the enook Portable Power Station can also be useful for remote worksites or construction projects where access to electricity may be limited. It can power tools and equipment, making the job more efficient and productive. With a minimum order quantity of 4, the enook Portable Power Station is a versatile and practical investment for anyone in need of a reliable and sustainable energy source.

Customization:

Packing and Shipping:

Product Packaging:

The Portable Power Station comes in a sturdy cardboard box with the product name and image printed on the front. Inside the box, the power station is securely packed with foam inserts to prevent any damage during transportation. The package also includes a user manual and a charging cable.

Shipping:

We offer free shipping for the Portable Power Station within the continental United States. Orders are processed within 24 hours and shipped via standard ground shipping. Delivery times may vary depending on the destination, but typically take between 3-7 business days. For international orders, shipping rates and delivery times will vary depending on the destination and shipping method selected at checkout.
